## Synopsis

Among the most influential authors and reformers of his age, Thomas Paine (1737–1809) was born in England but went on to play an important role in both the American and French Revolutions. In 1774, he emigrated to America where, for a time, he helped to edit the Pennsylvania Magazine. On January 10, 1776, he published his pamphlet *Common Sense*, a persuasive argument for the colonies' political and economic separation from Britain. *Common Sense* cites the evils of monarchy, accuses the British government of inflicting economic and social injustices upon the colonies, and points to the absurdity of an island attempting to rule a continent. Credited by George Washington as having changed the minds of many of his countrymen, the document sold over 500,000 copies within a few months. Today, *Common Sense* remains a landmark document in the struggle for freedom, distinguished not only by Paine's ideas but also by its clear and passionate presentation. Designed to ignite public opinion against autocratic rule, the pamphlet offered a careful balance between imagination and judgment, and appropriate language and expression to fit the subject. It immediately found a receptive audience, heartened Washington's despondent army, and foreshadowed much of the phrasing and substance of the Declaration of Independence. A selection of the Common Core State Standards Initiative.

## Book Information

Series: Dover Thrift Editions

Paperback: 64 pages

Publisher: Dover Publications; unknown edition (April 22, 1997)

Language: English

ISBN-10: 0486296024

ISBN-13: 978-0486296029

Product Dimensions: 5.5 x 0.2 x 8.5 inches

Shipping Weight: 2.4 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (1,065 customer reviews)

## Customer Reviews

*Common Sense* is one of the greatest articles of argumentation ever written. Paine was the finest

pamphleteer of his age and was able to turn the discontents of the colonists and, especially, the intellectual leaders of the revolutionary movement into arguments that were easily understood by ordinary colonials and which inspired them to rally to the cause of independence. I first read *Common Sense* more than fifty years ago and remember well being impressed with Paine's ability to carry arguments and to anticipate those of his opponents before his tract even hit the street. Over the course of my lifetime, I was inspired by the author and became a pamphleteer of sorts myself. I always told my colleagues that I wanted to become a poor man's Tom Paine. But after reading the piece once again, I realize that almost all who aspire to follow in his footsteps, if not fill his shoes, are doomed to become but very poor copies of the original. Other reviewers have noted the fluidity of his writing; it reads as simply, directly and forcefully today as it must have nearly a quarter of a millennium ago. Obviously, one did not have to be a great reader to be swayed by the force of Paine's words or to be inspired to the side of those wishing to throw off the English yoke. I was struck by echoes of Paine in many great American speeches that were running through my mind as I read. A number of quotes from Robert F. Kennedy seemed to have been directly inspired by *Common Sense*, and I hastily looked them up and offer these two for your consideration: "It is not enough to understand, or to see clearly. The future will be shaped in the arena of human activity, by those willing to commit their minds and their bodies to the task."

In an unrelenting quest to understanding the history of the United States, one obscure name comes to mind, Thomas Paine. Paine helped establish the meaning of democracy and the "united" in United States. His two monumental works, *COMMON SENSE AND RIGHTS OF MAN*, provided the philosophical and rhetorical building blocks that the founding fathers, such as Thomas Jefferson and Benjamin Franklin, et al., would emulate with the writing of the Declaration of Independence and the Bill of Rights. Many take for granted the origins of freedom and democracy in the United States, and as with many school history textbooks depict, Paine merely appears in a paragraph or two, and quickly disappears to historical oblivion. Nevertheless, when one reads *COMMON SENSE AND RIGHTS OF MAN: AND OTHER ESSENTIAL WRITINGS OF THOMAS PAINE*, there will be no doubt how significant his philosophical and political writings transformed the political structure of the colonies. Although this may sound somewhat romanticized, Paine's words ignited the energy for the colonists to free themselves from the tyrannical-monarchical leadership of England's King George III. With all the talk of Paine being a founding father, he may also be considered the father of revolution, American Revolution and French Revolution, and human rights. Without the inspiration from his friend Edmund Burke, author of *REFLECTIONS ON THE REVOLUTION IN FRANCE*,

Paine may not have been able to write the pamphlet Rights of Man. Indeed, his power of the written word translated to revolutionary action, and Jeffersonian ideology. In clear and no nonsense language, Paine's perspective of the state of the colonies are elaborately told in COMMON SENSE.
