Latino Images In Film: Stereotypes, Subversion, And Resistance (Texas Film And Media Studies Series)

Synopsis

The bandido, the harlot, the male buffoon, the female clown, the Latin lover, and the dark lady—these have been the defining, and demeaning, images of Latinos in U.S. cinema for more than a century. In this book, Charles Ramirez Berg develops an innovative theory of stereotyping that accounts for the persistence of such images in U.S. popular culture. He also explores how Latino actors and filmmakers have actively subverted and resisted such stereotyping. In the first part of the book, Berg sets forth his theory of stereotyping, defines the classic stereotypes, and investigates how actors such as Raquel Julia, Rosie Perez, José Ferrer, Lupe Vélez, and Gilbert Roland have subverted stereotypical roles. In the second part, he analyzes Hollywood's portrayal of Latinos in three genres: social problem films, John Ford westerns, and science fiction films. In the concluding section, Berg looks at Latino self-representation and anti-stereotyping in Mexican American border documentaries and in the feature films of Robert Rodriguez. He also presents an exclusive interview in which Rodriguez talks about his entire career, from *Bedhead* to *Spy Kids*, and comments on the role of a Latino filmmaker in Hollywood and how he tries to subvert the system.

Has a very good explanation for the origin of the latino stereotypes in Hollywood films, and may apply also for mainstream tv series and other kind of audiovisual productions. Used it for a recent

stereotype study in American and Colombian tv series and helped a lot to also understand what Latino images are being adopted by foreign filmmakers.

Just as Reel Bad Arabs, this book looks deep into media bias when it comes to minorities. This particular book looks deep into Latino images in cinema! So sad that a minority needs to be vilified so film producers can make some money!

I find this book extremely helpful, and teach it in at least two different classes, on film and communication.
