# The Party: The Secret World Of China's Communist Rulers

## Synopsis

“Few outsiders have any realistic sense of the innards, motives, rivalries, and fears of the Chinese Communist leadership. But we all know much more than before, thanks to Richard McGregor’s illuminating and richly-textured look at the people in charge of China’s political machinery.... Invaluable.” James Fallows, National Correspondent for The Atlantic  
The Party is Financial Times reporter Richard McGregor’s eye-opening investigation into China’s Communist Party, and the integral role it has played in the country’s rise as a global superpower and rival to the United States. Many books have examined China’s economic rise, human rights record, turbulent history, and relations with the U.S.; none until now, however, have tackled the issue central to understanding all of these issues: how the ruling communist government works. The Party delves deeply into China’s secretive political machine.

Through a series of anecdotes and interviews, largely drawn from his eight years in China as correspondent for 'The Financial Times', Richard McGregor illustrates 'the Party', a remarkable social organization which subordinates 1.3 billion people. It is a journalist's treatment rather than academic, so instead of explicitly offering analysis, Richard McGregor lets his interviews and stories largely speak for themselves. This provides a range of interesting characters, quotes and anecdotes. However, a side-effect is that many remarkable insights are either buried innocuously in the text or left to the reader's inference. The story is no less fascinating for it. The picture that

emerges is of a creative, adaptable, self-aware and resilient social network. Made up of 75 million party members, one in twelve adult Chinese, this self-perpetuating elite has no legal form beyond a mention in the preamble to China's constitution. The party exists outside the regular state apparatus and operates like a controller chip grafted into China's governing structures through party cells throughout government, the military, public companies and even private firms. Grounded in its near ubiquitous presence in the state, military, public and private spheres, the Party maintains its grip via a number of interconnected and synergistic processes. Its personnel system allows any individual to be replaced, transferred or expelled at the will of the organism. Party control of the military provides ultimate coercive sanction. The Party's discipline system places members above the law even as it strengthens Party control of the behaviour of its members.
