Customer Reviews

The flashcards come in a sheet and must be manually separated; this is a very cumbersome task. There are A LOT of grammatical and spelling errors. I have added a photo of the worst error I have come across; I think the word is supposed to be needs. These things lead me to the 4 stars rating. However, the content is written in a way that is easy to understand and is helping me study for my upcoming PHR exam.

Flashcards are really easy to study with and very effective to use in learning and remembering topics. These flashcards are composed of questions that will help your mind with remembering the answers to all the questions. The topics that you would learn from these flashcards are as follows: Business Management and Strategy, Workforce Planning and Employment, Human Resource Development, Compensation and Benefits, Employee and Labor Relations and Risk Management. Along with the flashcards is the study system technique where you will be guided on how to study with flashcards in the most effective way. There are actually a lot of advantages when using flashcards in studying, especially if the flashcards are similar to these Professional and Human Resources flashcards because the author was able to condense all those important information into small set of cards that can be viewed quickly and it can speed up the transition to long-term memory. Another good thing with these flashcards is that, you can use it anywhere you go and anytime you want. You can repeatedly read all these flashcards from time to time. Using repetition - all the information that you get from flashcards you will remember them when taking the test. Learning will be as quick as anybody wants it to be. Some questions can be difficult, but the

flashcard system should allow you to memorize them. It is better to be asked by questions that you don't know during the review and learn those things than to be asked with difficult questions during the test. It is a nice way to memorize all the facts in decent time.

Great Product and Great company to do business with!

There is plenty to know for this exam and his handy set of flashcards give you all the goods. The cards are divided by testing objectives or subjects that will appear on the exam. You have the opportunity to review the system as much as you like.

The literal quality of these cards is not great. They are just paper and you have to punch them out yourself. There were also lots of misspellings and typos. In the end, I actually used this resource the least in my studying. The answers were so longwinded that I had to highlight the key elements to make them more like traditional flashcards. I ended up making many of my own flashcards on Quizlet.

These cards are well written and touch on many of the phr concepts. However, I've been prepping for my PHR Exam for the past 90 days and I find these to be the least favorite of my study materials. I have also been using other flashcards from other sources that are a much better way of helping me understand, study, and remember exam content. I think flashcards should be a brief statement about the different topics but instead these are in narrative form and aren't really an effective quick review, flashcard study method.

After taking the exam and passing, I realized the cards were not directly helpful when it came to test time. I would not waste the money. PHR/SPHR Professional in Human Resources Certification Bundle (All-in-One) by Dory Willer is a much better resource.

I am using the flash cards to increase my knowledge in multiple subjects and practice learning the responses required for the test I hope to take in the winter. I am using the Practice exam for the same. It gauges what I am learning. I am hoping the cards will also help me get used to the wording used on the test.
