## Customer Reviews

Another volume in Time-Life's "Civil War" series, this one covers the actual beginning of the War, when South Carolina fired on Federal forces inside Fort Sumter at Charleston, through the first major land battle near Manassas, Virginia. A lot of detailed information, combined with numerous photos and period drawings, make this a treasured book for any Civil War buff.

This book follows the Civil War, from the April surrender of Fort Sumter to the skirmishes and other events which led to the First Battle of Bull Run in July 1861. This volume looks at the opening moves by both sides in the Eastern Theater, when the North and the South both thought the war would be a short one. Units were organized from scratch and both sides had to move untried troops to where the first battles would be fought...Well-written and well-illustrated this is an excellent book on the events leading to the first large-scale battle of the Civil War. Includes sidebars on early enlistments in the North, imaginative renderings of the Manassas battle, photos of soldiers taken before the first shedding of blood, weapons, and Ellsworth, the North's first martyr.

i am thrilled that was able to connect me up with this! Got the book, high quality! arrived well before

i thought it would! thx thx

This book is one in a series and is well written and so informative. It is wonderfully done with the story line and the photos.

It's amazing that the North won.
