## Customer Reviews

This book was in perfect condition. Additionally, there were plenty of included resources that I used within the textbook, most notably the clear and concise glossary with terms and ideas. It was a definite factor in my success in my Comparative Politics course.

Required companion textbook to Cases in Comparative Politics, these are great books for this subject.

It's a textbook. You learn stuff from it. I would rate it five stars but I'm not a major in politics so I didn't love the fact that I needed this, but it's exactly like the description.

I bought a new copy and this one is damaged

Book for school seems to be pretty good.

The condition the book came in was fine. I know you can't expect much from a textbook but I had to read this for a college class and it was the worst book I have read in my life. The author is a dull writer and obviously it isn't supposed to be exciting or anything since its a very poorly written textbook but still, I learned much more about comparative politics by looking on Google.

great item!

as expected
