GRE 2017 Strategies, Practice & Review With 4 Practice Tests: Online + Book (Kaplan Test Prep)

Synopsis

GRE 2017 Strategies, Practice & Review is an online and book prep system that covers the essentials of the GRE to help you score higher on Test Day. You'll get one-year access to an online center with realistic practice tests to help you score higher on the GRE. GRE 2017 Strategies, Practice & Review features:

- * 4 full-length practice tests (3 realistic Multi-Stage Tests available online and 1 in the book)
- * 650+ questions with detailed explanations including brand new questions for this edition
- * Academic support from Kaplan faculty via our Facebook page: facebook.com/KaplanGradPrep
- * Strategies and practice sets for all GRE question types

Kaplan guarantees that if you study with our online resources and book, you will score higher on the GRE or you'll receive a full refund. Also available: GRE Premier 2017 with 6 Practice Tests

Language: English

ISBN-10: 1506203205

ISBN-13: 978-1506203201

Product Dimensions: 8.4 x 1.4 x 10.9 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars See all reviews (4 customer reviews)

Best Sellers Rank: #12,856 in Books (See Top 100 in Books) #19 in Books > Education & Teaching > Higher & Continuing Education > Test Preparation > Graduate School > GRE #72 in Books > Education & Teaching > Studying & Workbooks > Workbooks #216 in Books > Textbooks > Test Prep & Study Guides

Customer Reviews

Kaplan's 2017 version of its GRE guide is better than the previous version, but it's still not a book I'd recommend for those who care about maximizing their scores. Things I liked:- the vocabulary section has been expanded, and has some useful strategies for learning new words.- there is finally some discussion (after 6 years of ignoring them) of "critical reasoning" questions, including those which ask you to strengthen / weaken an argument- the reading comprehension section is improved in terms of the depth with which passages are analyzed Things I don't like:- Kaplan questions and passages aren't realistic practice for the real test. They're too straightforward and have some weird

deviations from the way real questions are written. Even if this book had a million practice questions and tests, they'd be of little use, since they're not realistically written.- Kaplan strategies aren't very robust. They make a lot more sense when applied to Kaplan questions than when applied to real GRE questions.- The book claims that it's all you need when its editors know very well that supplementing with ETS (the company that writes the GRE) materials would be more effective. But they also know that students often just buy one GRE prep book...so they don't mention the ETS books.- Many of the covered math concepts just get a cursory treatment - maybe fine for those who just need a reminder - but insufficient for people who need to really learn certain things. Other tested math concepts are skipped altogether.Overall, this book is not what it claims to be: "exactly what you need to score higher".
