## Customer Reviews

This book is so enlightening! I heard Ron on a radio interview and all I kept thinking was that I want to hear more, so I bought the book. WOW! The information in this book is something the insurance companies would want to be illegal. Probably why this book doesn't get much publicity. It is incredible. It saved me over 14,000 dollars. I know how to deal with the collision repair shops, the tow truck drivers and the insurance companies. I never knew how much I was being conned. THIS IS A MUST OWN MANUAL! Everyone owns a car, everyone gets in an accident. But no one knows what to do when it happens. They only think they do, until they read this book. I bet you think you should call the insurance company. This book tells you why that's exactly what you don't do. BUY TWO OF THESE BOOKS! Give one to your teenager.

This book has the kind of information I needed to do battle with my insurance co. Thanks for the candid look at this very expensive "secret" thing I pay for ...

Unlike other reviewers before me (which I based my decision to buy this book) I found nothing, albeit a page or two, that makes this a worthwhile read. The book keeps talking about secret this, secret that, but it all adds up to just being a smart shopper. Whether you are buying a toaster or shopping for insurance, shop, compare, and decide. The book isn't worth borrowing. Mine's for sale. Or better yet I'll spare someone else and file it....guess where.

Car Insurance Secrets is terrific. It was given to me by my son when I bought my new car and I learned so much from it. I learned about insurance, what to do if I have an accident, even how to handle a repair and make sure the insurance co. is giving me what I'm due. We've asked the author to speak at our Senior Center. I highly recommend this book.

I'd like to give it more stars, and there is some great info in here, but with a 14 year old copyright I feel there should be some online updates for those of us who prefer an actual book..

Very informative. Written in clear and concise manner. I would recommend it to all drivers.
