Cracking The SAT Chemistry Subject Test, 15th Edition (College Test Preparation)

Synopsis

EVERYTHING YOU NEED TO HELP SCORE A PERFECT 800. Equip yourself to ace the SAT Chemistry Subject Test with The Princeton Review's comprehensive study guideâ€”including 3 full-length practice tests, thorough reviews of key chemistry topics, and targeted strategies for every question type. We don't have to tell you how tough SAT Chemistry isâ€”or how helpful a stellar exam score can be for your chances of getting into your top-choice college. Written by the experts at The Princeton Review, *Cracking the SAT Chemistry Subject Test* arms you to take on the test and achieve your highest score.

Techniques That Actually Work.â€¢ Tried-and-true strategies to help you avoid traps and beat the testâ€¢ Tips for pacing yourself and guessing logicallyâ€¢ Essential tactics to help you work smarter, not harder

Everything You Need to Know for a High Score.â€¢ Expert subject reviews for every test topicâ€¢ Up-to-date information on the SAT Chemistry Subject Testâ€¢ Score conversion tables for accurate self-assessment

Practice Your Way to Perfection.â€¢ 3 full-length practice tests with detailed answer explanationsâ€¢ Hands-on experience with all three question types in each content chapterâ€¢ Complete study sheet of core formulas and terms

Book Information

Series: College Test Preparation

Paperback: 384 pages

Publisher: Princeton Review; 15 edition (December 9, 2014)

Language: English

ISBN-10: 0804125686

ISBN-13: 978-0804125680

Product Dimensions: 8.4 x 0.8 x 10.9 inches

Shipping Weight: 1.4 pounds (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars [See all reviews](#) (17 customer reviews)

Best Sellers Rank: #5,687 in Books (See Top 100 in Books) #9 in [Books > Education & Teaching > Higher & Continuing Education > Test Preparation > SAT Subject Tests](#) #10 in [Books > Teens > Education & Reference > Study Aids > SAT](#) #15 in [Books > Teens > Education & Reference > Study Aids > College Entrance](#)

Customer Reviews

PROS:1. The section by section explanations are clear and well done.2. Besides a small caveat (mentioned below) I think that the practice tests are probably the best/ most on-the-ball in terms of what's actually on the SAT II chemistry test itself.
CONS:1. Only has three full-length practice tests

(compared to say, the Barron's, which has four, and is of similar quality)². Sometimes veers heavily into trivia (a whole section of the practice test was on biology stuff like nucleic acids, proteins etc which is very rare for the actual test itself... what is the third most abundant gas in the atmosphere when I can see them *maybe* asking the first or second on the actual SAT II)³. This is minor, but if you go through the whole book, the explanations will start to get irritating as the number of times they say "divide and conquer" to explain the true/false/correct explanation thing will get tiresome. In terms of the SAT II Chemistry options out there: a) Kaplan is WAY too easy in terms of the test bank/practice tests and, in my opinion, good for foundations review and/or confidence boosting b) the Official College Board one is, of course, great, but only gives you ONE practice test for Chemistry and really no subject review c) It's a toss up between Princeton and Barron's in terms of which is the best. I feel like the Barron's has questions that are almost a little too hard (or emphasize memorizing things that aren't as commonly tested, like heat of fusion constants that aren't provided), but Barron's gives you four practice tests whereas Princeton gives you three. They both have diagnostic tests and decent topic by topic review...
