Customer Reviews

I wanted to email in to say that not only do I feel like the flashcards are preparing me for the test; these flashcards are preparing me for my career in administration. I am learning so much that I know can be utilized after I take and pass the test. I appreciate the detailed information and I am able to take one flashcard at a time. I know that these cards will prepare me and I am happy that someone has them available as a study option. Thank you!

It is easy to take study on the go with this set of flashcards. Sometimes you may not want everyone in the room to know what you are studying for, to avoid too many questions while you are trying to get in some quality study time. This discreet set makes it simple to do so.

In 2013 I ordered the CLAD Study Guide and Flashcards and used them to pass the CLAD. On my first testing, I took all three parts and passed two of the three. On the one I did not pass, I earned 216 and 220 is the minimum score. I know this system enabled me to pass. When I took the one again, I did pass. Because of that experience, I ordered your CPACE material. Many have mentioned grammatical errors. I have not seen any. The copyright is 2015. Before purchasing I did email the question about the book being for the new test and I was told it was. I did four stars as the

flashcards are just same verbiage as the book, but there is a question on the front.

There is simply too much information on these cards to effectively use them as flashcards. I read most of the cards and underlined the key information, but trying to use them to review was simply pointless. They are helpful in recognizing patterns in answers and key phrases to use, but overall, I would not recommend these flashcards at all.

Very very wordy for flash cards. More like reading a book in tiny print. Just took the actual exam and the content and format did not help at all. I'm sure the information was true and accurate- but when studying you need quick and to the point, which these are not.

Flashcards really help you get a better understanding of the material. This set helps you get a better more in depth understanding of the information and if you feel something's been left out there's usually space enough for you to write in any extra notes or clues you feel necessary.

it is not helped at all. I used a prep test company. much better. this was worthless.

My initial impression is it is well organized and detailed.
