Officers And Soldiers Of The French Imperial Guard 1804-1815, Vol. 5: Cavalry
The fifth and final volume of this rich saga of the French Imperial Guard, André Jouineau presents the last troops in the Garde: the Horse Artillery, the Health Service, the crew trains, the artillery and artillery trains. A chapter about the headquarters staff closes the story of these glorious units. André Jouineau has been contributing to Histoire & Collections for more than 16 years. His uniforms plates, which are fully designed using data processing, have made him a pioneer in this field. In the "Officers and Soldiers Series" (OAS) he is also co-author of American Civil War (vols. 1 and 2), The Imperial Guard (vol. 1, 2, 3 and 4), and French Hussars (vol. 1, 2 and 3).

All of the books in this series are must haves, but only if you are even remotely interested in the Napoleonic period. The illustrations are a miniature modelers wish come true, as they are an excellent guide to the painting of any size miniature. The colors reproduced in the book are spot on and the detail of the illustrations is remarkable. Included in each book are illustrations of all ranks, displaying them so one can see the differences easily.

This series is a "must have" for those interested in French Imperial Guard Uniforms, and I will certainly obtain this final volume. However other sources indicate that it will not be available until June 2008.

This is another excellent volume depicting the uniforms of the French Imperial Guard. The colour
plates are excellent as usual with this series
