Let's Pretend This Never Happened (A Mostly True Memoir)
Synopsis
Audie Award Nominee, Humor, 2013
For fans of Tina Fey and David Sedaris - Internet star Jenny Lawson, aka The Bloggess, makes her literary debut. Jenny Lawson realized that the most mortifying moments of our lives - the ones we'd like to pretend never happened - are in fact the ones that define us. In Let's Pretend This Never Happened, Lawson takes listeners on a hilarious journey recalling her bizarre upbringing in rural Texas, her devastatingly awkward high school years, and her relationship with her long-suffering husband, Victor. Chapters include: "Stanley the Magical, Talking Squirrel", "A Series of Angry Post-It Notes to My Husband", "My Vagina Is Fine. Thanks for Asking", and "And Then I Snuck a Dead Cuban Alligator on an Airplane".

Book Information
Audible Audio Edition

Language: English
ASIN: B007UWP66O

Customer Reviews
I was laughing so hard at some parts, I was crying and had a sore throat afterwards! Even as I was laughing, I was thinking, "Should I be laughing at this? I'm glad it's a book, because if she was telling me this story, I'd still be laughing, which may be inappropriate and embarrassing for both of us!" Buy this book if:- you like Jenny’s website- you’re not easily offended- you’ve ever worked in HRDon’t buy this book if:- Cursing offends you- You’re easily offendedAlso, another reviewer noted spacing problems with the kindle edition. I noticed there were problems on my kindle touch, but I switched to my fire because I thought the pictures might be in color (they weren’t). This did solve the spacing problems, but that may be because I’ve changed the text size settings on my touch but not on my fire.
Incredibly funny memoir that made me laugh out loud to an embarrassing degree. Read it in the privacy of your home because you will snort with laughter! Jenny Lawson is a gifted storyteller and a talented humorist. Her ability to make her readers laugh and bring them into the story with empathy and warmth impressed me. Well done Jenny, well done.

I love memoirs, especially those of the quirky David Sedaris, laugh at my pain variety. Almost all the reviews were 5 out of 5 stars and the cover alone made me giggle. There were warnings that if you did not follow Jenny’s blog that you may not get her. So I googled "The Bloggess" and realized that I had in fact read her blog before and wasn’t a huge fan but forged ahead. While her awkward mishaps do make for great storytelling, you soon realize that these laugh out loud anecdotes are rooted in some serious issues. That’s what I wasn’t prepared for. It’s like when, let’s say an overweight person, makes a joke at a dinner party about their size, and everyone laughs and then they make another fat joke, and you sort of shift uncomfortably, and then another joke comes, and you’re like, wait, this isn’t funny anymore, this is just sad, and this person has issues. Imagine 400 pages of that, as Jenny glosses over her anorexia and mental health issues. Not to mention her cutesy style of rambling through her thoughts with plenty of non sequiturs, may actually be a manifestation of her anxiety and OCD and you stop yourself and say, am I chuckling at someone who may legitimately be insane? Perhaps I am one of those people who should have just read through her blog first and purchased the book later. I truly do appreciate that she can write about issues that are so personal with a smile and laugh, and perhaps her writing is a form of therapy for her. As a reader, I do think that you should be prepared, as this is not a Tina Fey, Sloane Crosly, Hilary Wilson type memoir. It’s a bit heavy with a laugh or two on the side. Wishing Ms. Lawson the best.

I’ve waited for this book with bated breath for months, and even more so after it was published a few weeks ago, and I had to wait for the shipment from the US to arrive. And then it came here. And I laughed so much. I laughed so much I cried. And then I cried at the sad parts. And then I laughed some more. And then I forced unwilling people in my surrounding to listen to parts of it. And then they laughed too. And then I decided anyone who doesn’t like this book, can’t be my friend.*warning* Language is not suitable for kids (i.e., some swearing), and not everyone will appreciate this form of humour. Which makes me suspect you might not have a sense of humour. Because who doesn’t like taxidermied animals and big metal-chickens named Beyoncé? Let’s
Pretend This Never Happened: (A Mostly True Memoir) is written by Jenny Lawson, aka The Bloggess, author of one of the funniest blogs (if not the funniest blog) on the Internet. I've been reading her blog for a few years now, and she never fails to crack me up. This book is no exception. From the craziness of her childhood, to penis-stories from her time in HR, taxidermied animals, big metal-chickens, the danger of towels left on the floor, etc., Let's Pretend This Never Happened is laugh-out-loud funny. But being funny doesn't keep The Bloggess from dealing with more serious topics, such as a series of miscarriages, and her battle with depression, general anxiety etc. This book is for all of us, who are just a little bit crazy (and who would probably benefit from letting our crazy out a little more often), and for whenever you need a good laugh, a giggle, or to think "it's not just me then." Best book so far this year, and I'm very very happy to have a hardback copy, because it won't be the last time I'll be reading it (and I almost never re-read books).
